- There are several APIs available to convert text to speech in python.
- One of such APIs is the Google Text to Speech API commonly known as the gTTS API.
- gTTS is a very easy to use tool which converts the text entered, into audio which can be saved as a mp3 file.
- The gTTS API supports several languages including English, Hindi, Tamil, French, German and many more.
- The speech can be delivered in any one of the two available audio speeds, fast or slow.
